ABOUT US

Yarwood Memorial Products is a family owned trade supplier. This rather unique memorial business is led by mother and daughter team, Cheryl and Hannah Yarwood.

Since 2015, they have strived to design, develop and source memorial urns and keepsakes from around the globe to fulfill families wishes, whilst being ethically responsible and aware. In October 2023, they rebranded with a new, fresh look and company name.

Being an environmentally conscious company, they support global reforestation programmes through Tree Nation. One tree is planted for every product ordered through their online store at www.yarwoodmemorials.co.uk

LUXURY GLASS URNS

They are bright, colourful, and tactile, making them a beautiful alternative to a traditional casket or urn. Either rest the ornate lid on top, or seal with silicone or glue.

GLASS MEMORY PEBBLES

Sealed with a stopper in the base, these hollow and tactile glass pebbles hold a token of your loved ones ashes, or a lock of their hair, if a burial is chosen. Hand-blown in the UK.

TIERRA ECO URNS

The Rio, Pura, Bola and Arena Urns are made of air-dried clay. Simply seal with water or glue to keep the ashes safe inside. They can be stored inside the home without degrading for years to come. Once buried, they take around four weeks to degrade, or 20 minutes to dissolve in water.

The Hielo and Fuego Urns are made of clay and then fired and glazed so will take approximately 10 years to biodegrade once buried. Glue provided to seal the lid.

Urns have water-soluble/biodegradable bags inside.

LIMBO ECO URNS

The Riviera Urn can be decorated with messages before it is committed to the sea. It floats for few minutes before sinking and completely dissolving.

RIVIERA

The Olea urn is perfect for ground burial, planting new tree life (depending on soil type) or nurturing an existing tree.

The Samsara urn is also suitable for ground burial, fresh water and ocean dispersal, dissolving quickly.

The Nu urns are made of pure salt and are designed for returning ashes to the ocean.

Urn has water-soluble/biodegradable bags inside.
