

Our range of  
**Coffins**

This brochure is designed to give you an indication of the many styles of coffin available. The sections highlight the number of choices of material and designs to consider. There are many more coffins to choose from within these ranges. Please ask the person helping you to arrange the funeral for more details about the full range of coffins available within each section.

**Our solid traditional coffins** are made by dedicated cabinet makers to ensure the highest standards using the best furniture grade woods. They are suitable for burial or cremation.

**Our natural coffins** are made using sustainable materials, are biodegradable, and are suitable for all types of burial and cremation too.

Everyone is unique and we believe that a **Reflections** picture coffin should reflect the interests and individual qualities of the person who has died. Each image tells a story and it's not surprising that more people are choosing to personalise the coffin when making funeral arrangements. Whether families choose a sporting theme, landscape or hobby from our examples or choose to design their own theme the Reflections picture coffin is a unique way of commemorating a life.

**Our traditional wood veneer coffins** are expertly crafted using a thin slice of real wood bonded onto the surface of a wooden, MDF or chipboard base. The pieces are then assembled, finished, and polished by hand to produce a high-quality coffin. As with our solid wood coffins, no two wood veneered coffins are identical as the grain of the wood veneer is unique to that slice of wood.

**Our foil veneer wood effect coffins** are created by gluing a simulated wood effect paper onto a chipboard or MDF base, from which the coffin is then assembled.

*Naturally coloured interior.*

Made from natural banana leaf hand woven on a wooden frame this striking coffin is designed with soft lines and beauty whilst maintaining strength and security. This coffin is available coffin shaped as illustrated or casket shaped. It is supplied with natural wooden handles and an engraved wooden nameplate. The interior is lined in calico. Other materials are available. It is suitable for both burial and cremation.

# Our Reflections Range

Personalised picture coffins reflect the individual qualities, interests, and uniqueness of those who have died. Designs can be chosen from our extensive brochure or our personalised design service can help you create a truly bespoke and meaningful design.

As an alternative to an engraved nameplate, we can print the name and additional details on the coffin itself as part of the design. This can be as simple or as intricate as desired. Please ask the person helping you with the funeral arrangements for more examples. We would be happy to work with you to create any bespoke design you may have in mind.

All designs are available in matching ashes caskets and scatter Tubes. Please talk to the person helping you with the arrangements.

# Our Ashes Caskets and Keepsakes

A funeral is a time to say goodbye and to remember the life of the person you have known and loved. We can advise on helping you find the final resting place for your loved one's ashes or provide you with a keepsake for some of the ashes, a lock of hair or an image of a fingerprint.

Even if you plan to bury or scatter the ashes, it is still possible to retain some of them for the purpose of including in a keepsake.
