

E Gill & Sons
Funeral Directors

A scenic landscape featuring a river flowing through a lush green valley. In the foreground, a stone bridge with two large circular arches spans across the river. The background is filled with dense, misty forest, and a large tree with intricate branches is visible on the right side of the frame. The overall atmosphere is peaceful and natural.

We are pleased to offer advice and guidance on selecting the appropriate coffin.

This brochure illustrates our standard range of traditional coffins in oak or mahogany.

For those seeking alternative coffins we have other ranges available and for a bespoke service, we will be pleased to discuss your requirements in detail.

Wherever possible, our coffins and caskets are supplied from environmentally responsible sources.
